

# SLING SINK™ SPEC SHEET

Perfect World Luggage part number: **SS1111(A)**

**NSN: 4510 01 514 8433**

Also known as "collapsible sink" or "sink, collapsible".  
Formerly Iron Duck- Fleming Industries part # 38112

**Sling Sink** is the collapsible, lightweight, easy-to-hang solution to cumbersome buckets, cans and tubs. The Sling Sink hangs anywhere without additional hardware, while its rectangular shape and 4-point hanging system create a tip-proof tub for scrubbing in or washing up. Weighing in at less than 2 lbs. when empty, and holding nearly 6+-gallons of dry goods or liquids, Sling Sink quickly collapses down to less than 2" in height. Rugged construction withstands hard use and extreme weather conditions. The rip-stop material extends the Sling Sink's life and use, even if it is slightly cut or damaged. Quickly turns inside-out for thorough cleaning and disinfection. Sling Sink has been extensively field-tested by the military to withstand all environments.

## Sling Sink features:

- Fully collapsible from 6 gallons to 2" tall. Store a full-sized "sink" under the seat of your vehicle or throw one in any pack.
- Easily cleaned with all standard cleansers and disinfectants. Turn it inside-out and scrub it, if necessary.
- Heavy-duty rip-stop waterproof vinyl body material. Resists even the toughest abuse and still holds liquid, even if the material is cut. Will hold liquid up to any cut line.
- 4+ ft adjustable strap for carrying and hanging. Hangs on ANYTHING! Have a full-sized sink wherever you go.
- Light-weight! Easily sling 4 or more Sling Sinks over your shoulder, leaving you hands-free.
- Flip-proof and tip-proof. A 4-point hanging system eliminates waste and accidents.
- 2 business card pockets for labeling
